

FULLY VEGETATED SEDUM MODULE - 6"

Our Fully Vegetated Module - 6" comes complete with fully grown vegetation, growing media, filter fabric, mineral drainage and water reservoirs. Each module includes 8-10 of the varieties specified, designed to thrive in varying roof microclimates. Fully Vegetated Modules offer many advantages:

- includes a **built-in channel for air flow** and/or irrigation supply
- **deep reservoirs** help the system maximize stormwater retention and provide moisture for plants
- has optional **interlocking fasteners** to connect adjacent modules together, protecting them from wind uplift
- **eliminates the need for edge restraints** when creating vegetation-free zones since its integrated edges with filter fabric is enough to contain the growing media
- flexibility to be **installed on flat or pitched roofs** with an installation rate of 860 ft² per day per person

 • Special order product

 • Full Pallet

 • 2 ft² per Module
• 24 Modules per Pallet (48 ft²)

LEED Credits available for:

- Sustainable Sites (SS)
- Water Efficiency (WE)
- Materials & Resources (MR)

TECHNICAL DATA

Module Materials:

- 100% Recycled Plastic

Module Dimensions (H x W x L):

- 6" x 12" x 24"

Module Area:

- 2.0 ft²

Module Weight (fully saturated):

- 34 - 41 lbs. / ft²

Vegetation Coverage:

- 95% (minimum at installation)

Water Holding Capacity:

- 3.17 in³ / in² (1.98 gal / ft²)

Sedum Varieties:

- Sedum spurium 'Fuldaglut', 'Green Mantle', 'John Creech', 'Red Carpet', 'Summer Glory', & 'Tricolor'
- Sedum kamtschaticum 'Variegatum'
- Sedum takesimensis 'Golden Carpet'
- Sedum acre 'Aureum', & 'Gold Moss'
- Sedum album 'Coral Carpet', & 'Murale'
- Sedum Stefcó
- Sedum floriferum 'Weihenstephaner Gold'
- Sedum reflexum 'Blue Spruce'
- Sedum rupestre 'Angelina'
- Sedum sexangulare
- Sedum x immergrunchen
- Sedum middendorffianum diffusum
- Sedum tetractinum 'Coral Carpet'
